I have many years of experience working in the District Clerk's office. I started in 1978 as a child support deputy and worked myself up the ranks to being the District Clerk. I love my job-every day is a challenge and I love challenges. I was here when we were mandated to turn our child support over to the SDU in 2004 to now mandating us to E-file all our documents. I love technology and I love the way my office thrives due to technology. I feel that when I don't have any excitement left in doing the job that I was elected to do and I start complaining about the changes and the challenges before me, then it will be time for me to retire. Our Office deserves to thrive as a county government agency and to always look for ways to provide better services for our constituents.
